Brother Will

Tom is here making us a little visit - while talking with him he informed me that Mr Marvin was talking some about putting up a Granite Monument. - I wish you would make some inquiries and if he wishes to buy - sound him and find out - about how much he wants to invest - and about what style he wants and let me know by return mail if you can conveniently. Father is now traveling selling Granite - I think I shall try it myself about the first of April or before - if you think ^{there} is any show for selling Mr Marvin a Monument - we will come out - and see him. - Father will be home on Saturday perhaps we might come out - next week if he thinks of buying any

thing between this time and next-
fall and show him what we have
in the way of Designs. Specimens of
Granite &c &c

Any assistance you may render
us in this matter will be thankfully
received.

We are all well. Mother and Kate
were out a week ago. Maggie's little
ones have been having the scarlet-
fever Mumps Chicken pox &c have
had their share I guess

Good sleighing today

Yours &c
Ed
